Checkpoint 4 Sprint 3 25-11-2020

I think this sprint went well from my perspective, I did an equal amount of work compared to the others. Everything worked well and there was no problem at all.

He is still keen to complete all tasks on time and has put his best on the project. And, he's got good communication with an entire team members.

Even though we went through the addition of new group members, Vlad continued to work hard on the project which proves once again that he is a great group mate to have. Keep up the great work!

He worked right on schedule and delivered everything on time.
